

MATRIX® 430 R2

RELEASE NOTES

*NOTE: These Release Notes are specific to the software used in standard Matrix 430 R2 consoles.
Separate Release Notes are available for the Matrix 430 VF R2 console software.*

Matrix® 430 R2 v1.02

April 2026

NOTE: This software will support units manufactured since March 2026, identified by Hardware version ≥ 24 and Part Number label stating “_R2”, e.g. “CG430VF_GLO_R2” (S/N: >10233430, Except 10234809 to 10234820)

Associated Documentation:

- Manual 98-05332 R4
- Guide 98-01493 R9

New Feature:

- This is the first release of software for a new hardware platform for Matrix 430 R2 and 430VF R2 which has been developed to ensure future deliveries of Matrix 430 and Matrix 430VF.
- Functionality remains unchanged from software version 1.06 for the previous hardware platform.
- If you have one of the older platforms, see Release Notes documents 98-01500-ENUS (Matrix 430) & 98-01561-ENUS (Matrix 430VF) for details.
