

# MATRIX® 430VF

## RELEASE NOTES

*NOTE: These Release Notes are specific to the software used in the Matrix 430 VF R2 consoles.  
Separate Release Notes are available for the Matrix 430 R2 console software.*

### Matrix® 430VF R2 v1.02

April 2026

*NOTE: This software will support units manufactured since March 2026, identified by Hardware version  $\geq 24$  and Part Number label stating “\_R2”, e.g. “CG430VF\_GLO\_R2” (Serial number >10233430)*

Associated Documentation:

- Manual 98-05351 R4

New Feature:

- This is the first release of software for a new hardware platform for 430VF R2 and Matrix 430 R2 which has been developed to ensure future deliveries of Matrix 430VF and Matrix 430.
- Functionality remains unchanged from software version 1.06 for the previous hardware platform.
- If you have one of the older platforms, see Release Notes documents 98-01561-ENUS (Matrix 430VF) & 98-01500-ENUS (Matrix 430) for details.
